

CFMS NEWSLETTER

Vol LVIII #5

May 2021

PRESIDENT'S MESSAGE

By Juanita Pardun

Hello!

I hope we are seeing the light at the end of the tunnel (Pandemic speaking). Things will never be the same as it was before, but maybe we will all have learned to do something new. I learned to reread my column before I mailed it. Of course this column is going out late. Computer and printer joined a union and nothing worked. We have reached a compromise and we all work when the sun doesn't shine, i.e. between 4 and 10 am. (ha, ha).

Sometimes we need to compromise in order to get things done. After talking to a lot of the societies in CFMS, I found many had complaints, insurance too much, CFMS has a lot of money, no resources on the website, and nobody answers their telephone. Well, it's like this CFMS is here to help the societies, but first you need to realize we are just people. We have problems, take vacations, just like you. But if you really want to "fix" things, then you need to volunteer to help run CFMS. Take a look at the list of committees at the end of this bulletin. Anything look interesting to you? Call and voluntary to help. Sometimes, a new view point or skill would be helpful. If nothing else, you might learn something new. Ask what they do and ask how you can help.

This last year we have learned to use Zoom, Slack, Duo, GoToWebinar, MyDoctor, and other platforms. I liked the face to face meetings because there are times you want to hand things over. But it is quicker and easier to meet online, than drive to a location. We are also using Emails more. It is important to respond to every email CFMS send out. Even if it is to just acknowledge receipt of the email.

NOTE: Since there will be no show in June, there will be a ZOOM meeting on Saturday, June 26th for the Directors. Marcia will be setting it up. **So save the date!!**

Juanita

CFMS NEWSLETTER SUBSCRIPTIONS

CFMS Newsletter is published 11 times a year by the California Federation of Mineralogical Societies, Inc., PO Box 1657, Rialto, CA 92377-1657. Subscription: \$5.50 per year, January through December.

CFMS WEBSITE

The CFMS website is accessible at www.cfmsinc.org
Editors are invited to download articles for their bulletins from this website. Please be patient as our new webmaster builds our new website.

NOTES FROM THE EDITOR

The deadline for the newsletter is the 5th day of the month prior to the month of publication. Articles should be sent to the editor at bplarue@earthlink.net. "snail mail"? Please send to the CFMS PO Box 1657, Rialto, CA 92377-1657. Articles without a byline are written by the editor.

DONATIONS

Donations to any of the funds administered by CFMS and/or AFMS are tax deductible under the rules governing tax exempt organizations which are 501(c)(3). Your cancelled check or receipt is considered to be proof of your donation for purposes of filing your federal tax return. If a personal donation is \$250 or more, a letter attesting to that amount is also required. Member clubs and individuals are encouraged to donate to any of the following:

CFMS Scholarship Fund
CFMS Endowment Fund
CFMS General Fund
Diedrick Memorial Scholarship Fund
AFMS Scholarship Foundation
AFMS Endowment Fund
Burns Memorial Camp Fund (benefits Earth Science Studies)

Your donations should be sent to:
Pat LaRue, Exec. Sec/Treas
PO Box 1657
Rialto, CA 92377-1657

Receipts and any supporting documents will be forwarded on to the committee member responsible for acknowledgment. Please make all checks payable to CFMS or AFMS as appropriate and note the fund in the memo section.

SOCIETY ROSTER INFORMATION DIRECTORS MEETING REPORTS

By Pat LaRue, Exec. Sec/Treasurer

I will begin producing the Society Roster for 2021 within the next few days. This will be available in time for the June Directors meeting and will be mailed with the meeting materials. This will be mailed to the Federation Director of record. If no Federation Director is named, I will mail to the society/club mailing address. If you wish to have this mailed to the club address, let me know.

Please note that the report deadline for the June 26 Directors Meeting is June 1. This will allow time to compile and prepare the materials for mailing prior to the AFMS meeting. As before I will email the materials in pdf format if preferred. Thank you.

JUNIORS ACTIVITIES

By Jim Brace-Thompson, CFMS
Juniors Chair

Seeking Kids' Help Crafting an FRA Mascot & Oath

Cheryl Nearly, from the AFMS Central Office, noted briefly in last month's AFMS Newsletter that two new contests are in the works as a part of AFMS Junior Programs. I'm joining forces with Cheryl to square away the details of these contests toward a more formal announcement.

In short, we envision contests seeking the involvement of pebble pup and junior members to craft a "mascot" for the juniors program and an oath or pledge kids would take upon joining a club with a juniors group. We are currently envisioning a deadline around November 2021. This would allow time for entries to be crafted, sent, and judged from all seven regional federations and then for awards to be made at the January 2022 AFMS Show & Convention in Texas.

The contests will be announced formally at the upcoming June 2021 AFMS Show & Convention in Wyoming and full details will be published in the pages of both the AFMS Newsletter and our own CFMS Newsletter. Details will also be emailed to the junior leaders of local CFMS clubs using the AFMS/FRA Badge Program. Stay tuned for more fun to come!

ROCKHOUND OF THE YEAR

By Chris Ward-ROTY Chair
chris_ward678@yahoo.com

Greetings Rockhounds! The following honoree(s) have been submitted for the prestigious CFMS Rockhound of the Year Award. Let's all send a shout-out congratulations to our honoree(s) and remember, you too can submit your member for this recognition as well.

Margaret Hogarth
Searchers Gem & Mineral Society

Margaret has been one of the hardest working Show Chairs I've known and she's done it for 6 years. Our show always has a large attendance & a lot of that is due to her expertise at planning & advertisements. And her helper bees, of course.

She's a Librarian at the Claremont Colleges (CA) and is on the Board of their Friends of the Library. She has been a beachcomber all her life, mainly collecting shells & weathered glass. Now she tumbles glass for her grab bags.

She & her husband, Tom, go to most all of the field trips & they enjoy camping out. They have also gone to Camp Paradise the last 4 years (except last year, of course) and once to Zzyzx. Tom likes carving while Margaret enjoys lapidary, Ming Trees and carving. She thinks the Earth Science Schools are a pretty great and affordable vacation!

She also supplies the bulk of the grab bags, the raffle & the spinning wheel prizes for the show and answers calls for help with material at every meeting. She thinks about these things all year and you can tell by the quality of the offerings.

We are lucky to have such a wonderful and actively engaged member in our club for the past 13 years.

Submitted by: Nancy Bird – Federation Director
Searchers Gem & Mineral Society

CFMS JURY OF AWARDS

Seeking Nominations for AFMS Scholarship
Foundation Honoree

It is time again for the nominations for CFMS Jury of Awards for an AFMS Scholarship Foundation Honoree. November 1, 2021 is the latest date that nominations may be received, as the selection will be made by the CFMS Jury of Awards Committee at our Fall Business Meeting.

Six of the seven AFMS Federations participate in this awards program each year. Each of these Federations chooses an Honoree. The six Honorees are given the privilege of choosing a University within the territory of their Federation, and on behalf of the AFMS Scholarship Foundation two students pursuing graduate studies in the Earth Sciences receive a scholarship in the amount of \$4000.00.

The Guidelines for Nominating an Honoree:

1. The individual or couple must not know that their name is being considered.
2. Should be well versed in the Earth Sciences.
3. Should have helped further the knowledge and skills of rockhounds and the Earth Sciences to societies as well as individuals.
4. Need not be a member of a CFMS Society
5. The Honoree may receive this honor only once.

At this time, the nominee's name and the documentation for his/her nomination should be sent to:

CFMS Jury of Awards Chairman
Kimberly Fiala
3735 Argonaut Ave
Rocklin, CA 95677
Email: fialakimberly@yahoo.com

Please send me an email letting me know the documentation is forthcoming through the US Postal Service.

ROCKHOUND SOAP BOX

CFMS PLAC - John Martin
plac@antelecom.net

**Recreational Rockhounding and
Recreational Rockhounds.
What do they mean?**

In the simplest terms Recreational Rockhounding is – The lawful removal of Non-renewable Natural Resources from Public Lands for personal non-commercial use.

Recreational Rockhounding also applies to the removal of Non-renewable Natural Resources from Private Land with the permission of the Land Owner.

Recreational Rockhounds – Persons who engage in Recreational Rockhounding. (as defined above)

There that was simple enough or was it? Think about it. The second word in the definition “Lawful” what does that mean? How does one know if their removal is Lawful or what is Unlawful Recreational Rockhounding?

The Lawfulness of Recreational Rockhounding has been defined and is explained in the Code of Federal Regulations (CFR) Title 1 through Title 50. Lucky for the Recreational Rockhound, there are mostly only 2 titles that really apply. Title 30 – Mineral Resources⁽¹⁾ and Title 43 Public Lands: Interior⁽²⁾.

Starting with Title 43 here are some of the definitions and rules for Recreational Rockhounding:

Part **8365 of Title 43 CFR** [Code of Federal Regulations], which provides for the collecting of “reasonable quantities” of rocks, minerals, semiprecious gemstones, and invertebrate and plant fossils of non-scientific importance, for personal use.

Legal Definition of Recreational Rockhounding as defined in Title 43 CFR.....

§ 8365.1-5 Property and resources.

(a) On all [public lands](#), unless otherwise authorized, **no person shall;**

(1) Willfully deface, disturb, remove or

destroy any personal property, or structures, or any scientific, cultural, archaeological or historic resource, natural object or area;

(2) Willfully deface, remove or destroy plants or their parts, soil, rocks or minerals, or cave resources, except [permitted](#) under paragraph (b) or (c) of this paragraph; or

(3) Use on the [public lands](#) explosive, motorized or mechanical devices, except metal detectors, to aid in the collection of specimens [permitted](#) under paragraph (b) or (c) of this paragraph.

(b) Except on [developed recreation sites and areas](#), or where otherwise prohibited and posted, it is permissible to collect from the [public lands](#) reasonable amounts of the following for noncommercial purposes:

(1) Commonly available renewable resources such as flowers, berries, nuts, seeds, cones and leaves;

(2) **Nonrenewable resources such as rock and mineral specimens, common invertebrate and common plant fossils, and semiprecious gemstones;**

(3) **Petrified wood as provided under subpart 3622 of this title;**

(4) **Mineral materials as provided under subpart 3604; and**

(5) Forest products for use in [campfires](#) on the [public lands](#). Other collection of forest products shall be in accordance with the provisions of Group 5500 of this title.

(c) The collection of renewable or nonrenewable resources from the [public lands for sale or barter to commercial dealers may be done only after obtaining a contract or permit from an authorized officer](#) In accordance with part 3600 or 5400 of this chapter.

Next month will be the rules and definition of collecting for personal use and commercial use. The methods of collecting under the CFR 43 and the extrapolation of the requirements for Petrified Wood as provided under subpart 3622 and Mineral Materials as provided under Subpart 3604 of this CFR title 43.

“Happy Recreational Rockhounding and enjoy your Public Lands”

Footnotes:

GROWING YOUR CLUB–Part 2

By Dr. Ken Zahn (past President of NFMS 2020) and
Bozeman GMS (Montana)

First, some typical common elements of successful clubs I’ve noticed over the years:

(1) An efficiently planned and organized annual show featuring 20 – 30 display cases of both nearby-area materials and world-wide specimens. It should also be a major profit center for the year, not a financial drain. Our Show Chairperson thinks way ahead about every detail (venue contract, security, support staff training/briefing and duty assignments, floor layout, equipment condition, insurance, audio system, etc.), plans activities for kids, lines up and communicates early with high-quality vendors, and maintains a short waiting list of locals in case of potential last-minute cancellations. Pretty standard! But at Bozeman’s shows, I’ve seen some interesting additional, more subtle “success elements” that the chairperson puts in place as well. We bought out a failing party-rental agency’s chairs and use them for the show, saving big bucks each year by not renting them from the venue (Fairgrounds). Running a food concession is a pain for

permits, a cut of the profit for the venue, health department hassle, etc.

We provide a free, member-donated “pot luck” dinner for vendors and club volunteers on setup evening, and have free snacks and beverages during the show—simply asking for a small donation; we build good will and don’t lose money on it. In 2010, one member canvassed each entering attendee as to how they heard about the show; the analysis of the data sheet results drove a major shift in how we advertised from 2011 on and attendance has generally grown each year. Our “silent auction” is generally not “silent.” A pretty vocal “color” announcer talks up the pieces being offered, mentions vendors, and reminds folks of other show info such as raffles, food, activities for kids, and videos that may be running. Besides the usual donated-item raffles, we buy a very large, splashy (but inexpensive) display specimen at the Tucson show each year and sell only a limited number of \$10 raffle tickets on the item at our show, bringing a 5-10-fold profit. Talking up possible membership to attendees is also VERY important. Use an enthusiastic, very friendly member for the task, and be sure to discuss it at entrance, during the show, and at the exit. Having club mining claims, activities for kids, and a good field trip schedule to mention/discuss helps people consider

membership. Passivity here gets almost no new memberships.

- (2) A well-planned and organized set of field trips scheduled for the collecting season. Assure there are designated leaders for planning, leading, and announcing each outing via meetings, email, and website/Facebook page, etc. We've done some "over-nighters" to N. Idaho and Utah as well, and have sometimes subsidized the purchase cost of sapphire gravel buckets for club members—a very successful way to get newcomers out on a field trip here in Montana.

- (3) Great topical guest speakers, educational program presentations, demonstrations, and occasional videos for monthly meetings. We have offered speakers from out-of-town a room at a member's home for the night after the meeting so that there is no motel expense, and no need for them to drive home late at night. These speakers become like "family" to our club.

- (4) Smoothly-run, informative, and up-beat monthly meetings. Again—a pretty standard goal of any club. Our club meetings aren't much different in format from most, BUT we've learned some lessons that have paid big dividends in the hardest part of growing membership—retaining new members after their first year. Think about it: Clubs usually meet only an average of 9-10 times a year in a formal evening business meeting format (usually there's a Christmas party and a summer picnic meeting – with little business conducted). No new member attending their first several monthly meetings wants to hear bickering about payment of minor bills, long-winded diatribes about what we can't do or shouldn't do, or heated arguments about personal opinions on trivial issues. Even one such meeting is enough to turn off a newcomer, yet many "mature" clubs have these characteristics in spades. This is how clubs often shrink or die, or why members transfer elsewhere. Keep it light; keep it fun. During the early Spring of 2010, for example, a group within our club launched a tirade over certain club property immediately after our Vice President gavelled a meeting to order (the President was away).: Thirty minutes later the wide-eyed guest speaker gave his presentation. Meeting over, the stunned attendees left embarrassed and divided. Over the next 2 months, the club completely reorganized meeting procedures. New bylaws were written and passed, and a functioning Executive Board and essential Standing Committees were established. The meeting format was reorganized (program presentation; then refreshments, "show-and-tell," and silent auction; followed by short business meeting). The dissenting group left the club over

the bylaws changes, but membership almost doubled over the Summer and Fall – and remained stable through 2013. Since then, financial and operational matters and long-range plans have been fully discussed by the Executive Board first, and the business elements of general meetings are then more focused and efficiently conveyed. Members HAVE FUN at the meetings, enjoy the program presentations, make friends with other members, are happy with their auction winnings, and leave enthused with what they see can be collected on upcoming field trips.

From *Northwest Newsletter* 3/16 via *AFMS Newsletter* 2/21

Part 1 was published in the March 2021 CFMS Newsletter. The title was not included in the list of contents by mistake. Part 3 will be included in next month's newsletter.

EMAIL SPAM WARNING

Have you gotten an email recently asking if you're busy, can you do me a favor, etc., etc.? If you just happen to be the current treasurer or even a past treasurer of your club you probably get them rather frequently. The thing all these emails have in common is that they seem to come from the President of the organization and are 100% fake. I average 2-3 a week, the most recent ones being from Juanita and/or Judy Beck (AFMS President).

The usual request is for a wire transfer or gift cards. The best way to handle this type of email is to delete them immediately. Don't respond to them. One way to determine if they are actually from the person they claim to be is to hover over the name of the sender. The email address being used by the actual sender will appear. If ever in doubt, contact the person who says they are sending the email if they really sent it. You could even make a phone call (remember those?).

Speaking of contact information, I recently deleted all mailing addresses of the officers/chairmen from the web version of the newsletter. This information is still available in the hard copy. If any club member needs this information, they can ask one of persons receiving the newsletter. These are usually the President, Federation Director and Editor unless the society/club has designated others to receive the complementary copies. The information is also available on the website in the password protected section.
